

#8. 1991

LYME DISEASE CONFERENCE:

TRAINING THE EDUCATORS

Prevention is the single most important message about Lyme disease that needs to be communicated by educators to the general public. Therefore, this one day educational program is designed to give you, the Lyme Borreliosis Educator, the basics about the disease and prevention information critical to limiting this disease.

*Jamie Forschner was buried
a few days before this conference.*

KEYNOTE - CONGRESSMAN HOCHBRUECKNER

*We held the conference despite
our devastating loss.*

LYME DISEASE DIAGNOSIS & TREATMENT

ENVIRONMENTAL CONTROLS - TICKS, CHEMICALS, & NATURAL CONTROLS

TICK WORKSHOP - A "HANDS ON" LOOK AT TICKS AND REMOVAL METHODS

PERSONAL PROTECTION

MODEL HEALTH DEPARTMENT RESPONSE

EDUCATING THE PUBLIC - SPREADING THE WORD

Date: July 1, 1991, July 2, 1991 (repeat)

Place: Shelter Island, New York

For more information contact : Thomas Forschner, LBF Executive Director (203) 871-2900

PRE-REGISTRATION REQUIRED

LYME BORRELIOSIS FOUNDATION

The Leader in Lyme Disease Education & Research

The Public Health Service participated in the support of this meeting under grant #R13/CCR106395-01 from the Centers for Disease Control.

Education about prevention is currently the single best defense to stopping the spread of Lyme Borrelia (disease). Prevention is easy and relatively low cost. Daily self tick checks are free and empower the public with control over the disease. Prompt and correct tick removal can totally prevent or significantly reduce infection. It is important that this message be communicated to the public. We hope that you, the Lyme Borrelia Educator can attend our innovative conference.

REGISTRATION FORM

Name _____
First (For Badge) Last

Firm _____

Title _____

Street _____

City _____

State _____ Zip _____

Daytime Phone (____) _____
